

Intermittent Motion Heat Seal and Crimping System

High-quality sealing of film (or Board-Lid
Crimping) at a reduced cost.

- May Incorporate Automatic Filling Equipment.
- Complete turnkey solutions to meet your specifications.
- CE Marking Available for the European Union.
- Quick carrier and sealing head change over.

Intermittent Motion Heat Seal and Crimping System

The system conserves valuable plant space by allowing both film sealing and board-lid crimping on a single line. By minimizing setup and change over times, the Intermittent Motion Heat Seal and Crimping System provides manufacturers the flexibility to rapidly react to marketplace demand.

Sanitary Construction

Heat seal machines built by Raque Food Systems are constructed entirely of high- quality, food grade materials. The machine, and all machines built by Raque Food Systems, can be CE Marked

for conformance with E.U. Directives mandated by the European Commission and the European Free Trade Association.

Systems Integration

The color Operator Interface Terminal (touchscreen) allows users, through a series of password protected security levels, to access screens required for operation, setup, and maintenance. Utilizing the touchscreen, powerful line management and troubleshooting features can be accessed directly from a central terminal. The hardwired stop circuit, with an operator-control panel reset, is monitored by the PLC ensuring full compliance to applicable safety standards.

Customizing

Raque Food Systems builds machinery to fit your needs. A complete line of turnkey systems are available to fill almost any need, including:

- Filling Equipment
- Conveyor Systems
- Pizza Lines
- Heat Seal Machines
- Pie Lines
- Material Handling Equipment

Technical Data

FEATURES AND OPTIONS:

- 60 CPM (Containers Per Minute)
- Quick Release Change Parts
- Touchscreen Controls
- Washdown Construction
- Infeed extension for add-on fillers.
- Multiple purpose machine, runs plastic, aluminum, and paperboard containers.
- CE Marked
- Die-Cut / Rewind for Film Sealing
- Single or double lane available.
